# WHY ATTEND?

## FOR TODAY'S BUNKER DECISION-MAKERS AND TOMORROW'S INDUSTRY LEADERS

Designed for newcomers to bunkering and shipping, and for professionals who need a stronger understanding of marine fuel markets, operations and risk.

### Expert-led training

Learn from practitioners who understand the technical, legal and commercial realities of bunkering.

### Practical training

Case studies, scenarios and exercises turn knowledge into commercial judgement.

### Residential experience

A focused learning environment in the historic surroundings of Oxford.

### Relationship building

Build lasting connections with peers and experts from across the bunker value chain.

### Career development

Broaden your perspective and accelerate your professional growth.

### Global perspective

Gain a truly international view of the industry, market and future trends.

## WHO SHOULD ATTEND

- BUNKER BUYERS
- TRADERS & SUPPLIERS
- SHIP OWNERS & CHARTERERS
- BARGE & TERMINAL OPERATORS
- LEGAL & CLAIMS SPECIALISTS
- FINANCE & RISK PROFESSIONALS
- FUTURE LEADERS

# WHAT YOU'LL LEARN

## FROM BASICS TO CERTIFICATION

The programme mixes expert teaching, practical exercises, networking breaks and evening activities across the week.

### 1 SUPPLY CHAIN

From refining to delivery, understanding the global bunker supply chain.

### 2 FUEL QUALITY & TECHNICAL KNOWLEDGE

Fuel characteristics, testing, compatibility and operational considerations.

### 3 COMMERCIAL & TRADING

Market dynamics, pricing, risk management and commercial strategy.

### 4 REGULATION & FUTURE FUELS

Global and regional regulations, compliance and the transition to low-carbon fuels.

### 5 LEGAL, CLAIMS & RISK

Contracts, terms, claims handling and managing legal exposures.
