Bunker Experience

Take your learning beyond the classroom. Gain first-hand knowledge, practical skills and industry insights you can apply directly in your day-to-day role

12-16 April 2027
27-30 September 2027

Rotterdam, Netherlands
Delta Hotel, Vlaardingen

INVEST IN YOUR FUTURE
£2,995

CLASSROOM | LABORATORY | BARGE

WHY ATTEND?

HANDS-ON TRAINING. REAL OPERATIONS. PRACTICAL KNOWLEDGE THAT DELIVERS.

BunkerExperience combines classroom learning with laboratory analysis and live bunker operations in the heart of Rotterdam.

COURSE LECTURERS

Expert guidance

Learn from experienced professionals with real industry expertise

Ton Visser
Oiltraining

Claudia Beumer
Director, C4fuel

Martijn Hoek
Team Leader Bunkers, Bureau Veritas

Leon Van Duivendijk
MD, Iver Ships

LIVE OPERATIONS

Experience real bunker transfers on an operational barge

LABORATORY INSIGHT

See how samples are tested and results are generated in professional lab

QUALITY ASSURANCE

Interpret lab results and understand international fuel standards

SHIP & SHORE CONNECTION

Understand how fuel is managed safely and efficiently onboard and ashore

PRACTICAL IMPACT

Gain practical insights you can apply immediately in your day-to-day work

THE EXPERIENCE

A unique blend of learning, analysis and real-world bunkering operations

MORNINGS
CLASSROOM

Expert-led sessions build the essential knowledge on shipping, mass flow meters, buying and refinery processes and discussing laboratory work.

TUESDAY
BUNKER BARGE

Gain hands-on experience measuring and sampling marine fuel oil aboard a VT bunker barge, under the expert guidance of Bureau Veritas marine surveyors.

WEDNESDAY
LABORATORY

Develop practical laboratory skills by carrying out essential tests on marine fuel oil samples. Accurately measure density, viscosity, flash point, pour point, cloud point, sulphur and water content, interpret the results, and identify how each property affects fuel quality, safety and performance

THURSDAY
PORT DAY

Experience the working environment of a busy maritime port with a tour of its ships, terminals and facilities.

EVENINGS
NETWORKING

Relaxed evening meals provide an opportunity to discuss your observations, ask questions and connect with fellow students.

YOU'LL GAIN
PRACTICAL UNDERSTANDING OF

- Fuel characteristics
- Bunker quality
- Sampling techniques
- Laboratory procedures
- Mass flow meters
- Barge operations
- Fuel handling
- Best practice
